distinguring, and numbrating skin, scale, and solon humors, which assist half, when all else fails.

This sweet and wholesome treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning, and scaly humors of the skin, scalp, and blood, and points to a speedy, permanent, and economical cure when all other remedies fail.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants and the anxiety of worn-out parents, as in milk crust, tetter, and salt rheum — all demand a remedy of almost superhuman virtues to successfully cope with them. That CLTICULA remelies are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the exclusive of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures and humor remedies of the civilized world.

There are seven Pilots "star gazing" between Louisville and Cincinnati whose homes are at Ghent.

Mrs. French and Mrs. Leathers of St. Louis are the only women on the Ohio and Mississippi rivers who hold Commanders' and Pilots' license.

The rate war between the rival packets in the Cincinnati and Louisville trade isn't setting the river on fire, and somebody is losing money and wearing out a steamboat.

Commodore William Marmet says that after a number of vexatious delays, work has been resumed on the company's towing steamer Ark, at Pt. Pleasant, and the boat is expected to be completed inside of six weeks from this time.

At the meeting of the City Council in Memphis recently, application was made by the proprietors of the Lee Line packets for a permit to creet a building on the levee in close proximity to the wharf. The proposed building is to be an ornamental structure, which will add to the appearance of the river front and prove a source of comfort and convenience to patrons and passengers of boats. It will be provided with comfortable waiting-rooms and all modern conveniences, and will be in effect a river depot.

White, SELLING OUT

I can't believe it. It's true, all the same. G. S. Judd sold out to Mr. White and went West. J. P. Martin then sold out to Mr. White, and now Mr. White sees that he cannot see well enough to conduct the business, so he has decided to close out his large and elegant stock of

-C. H. WHITE & CO.
